ZÜRICH **FINest Showtime**

Event-Date: 24.06.2016

Overview

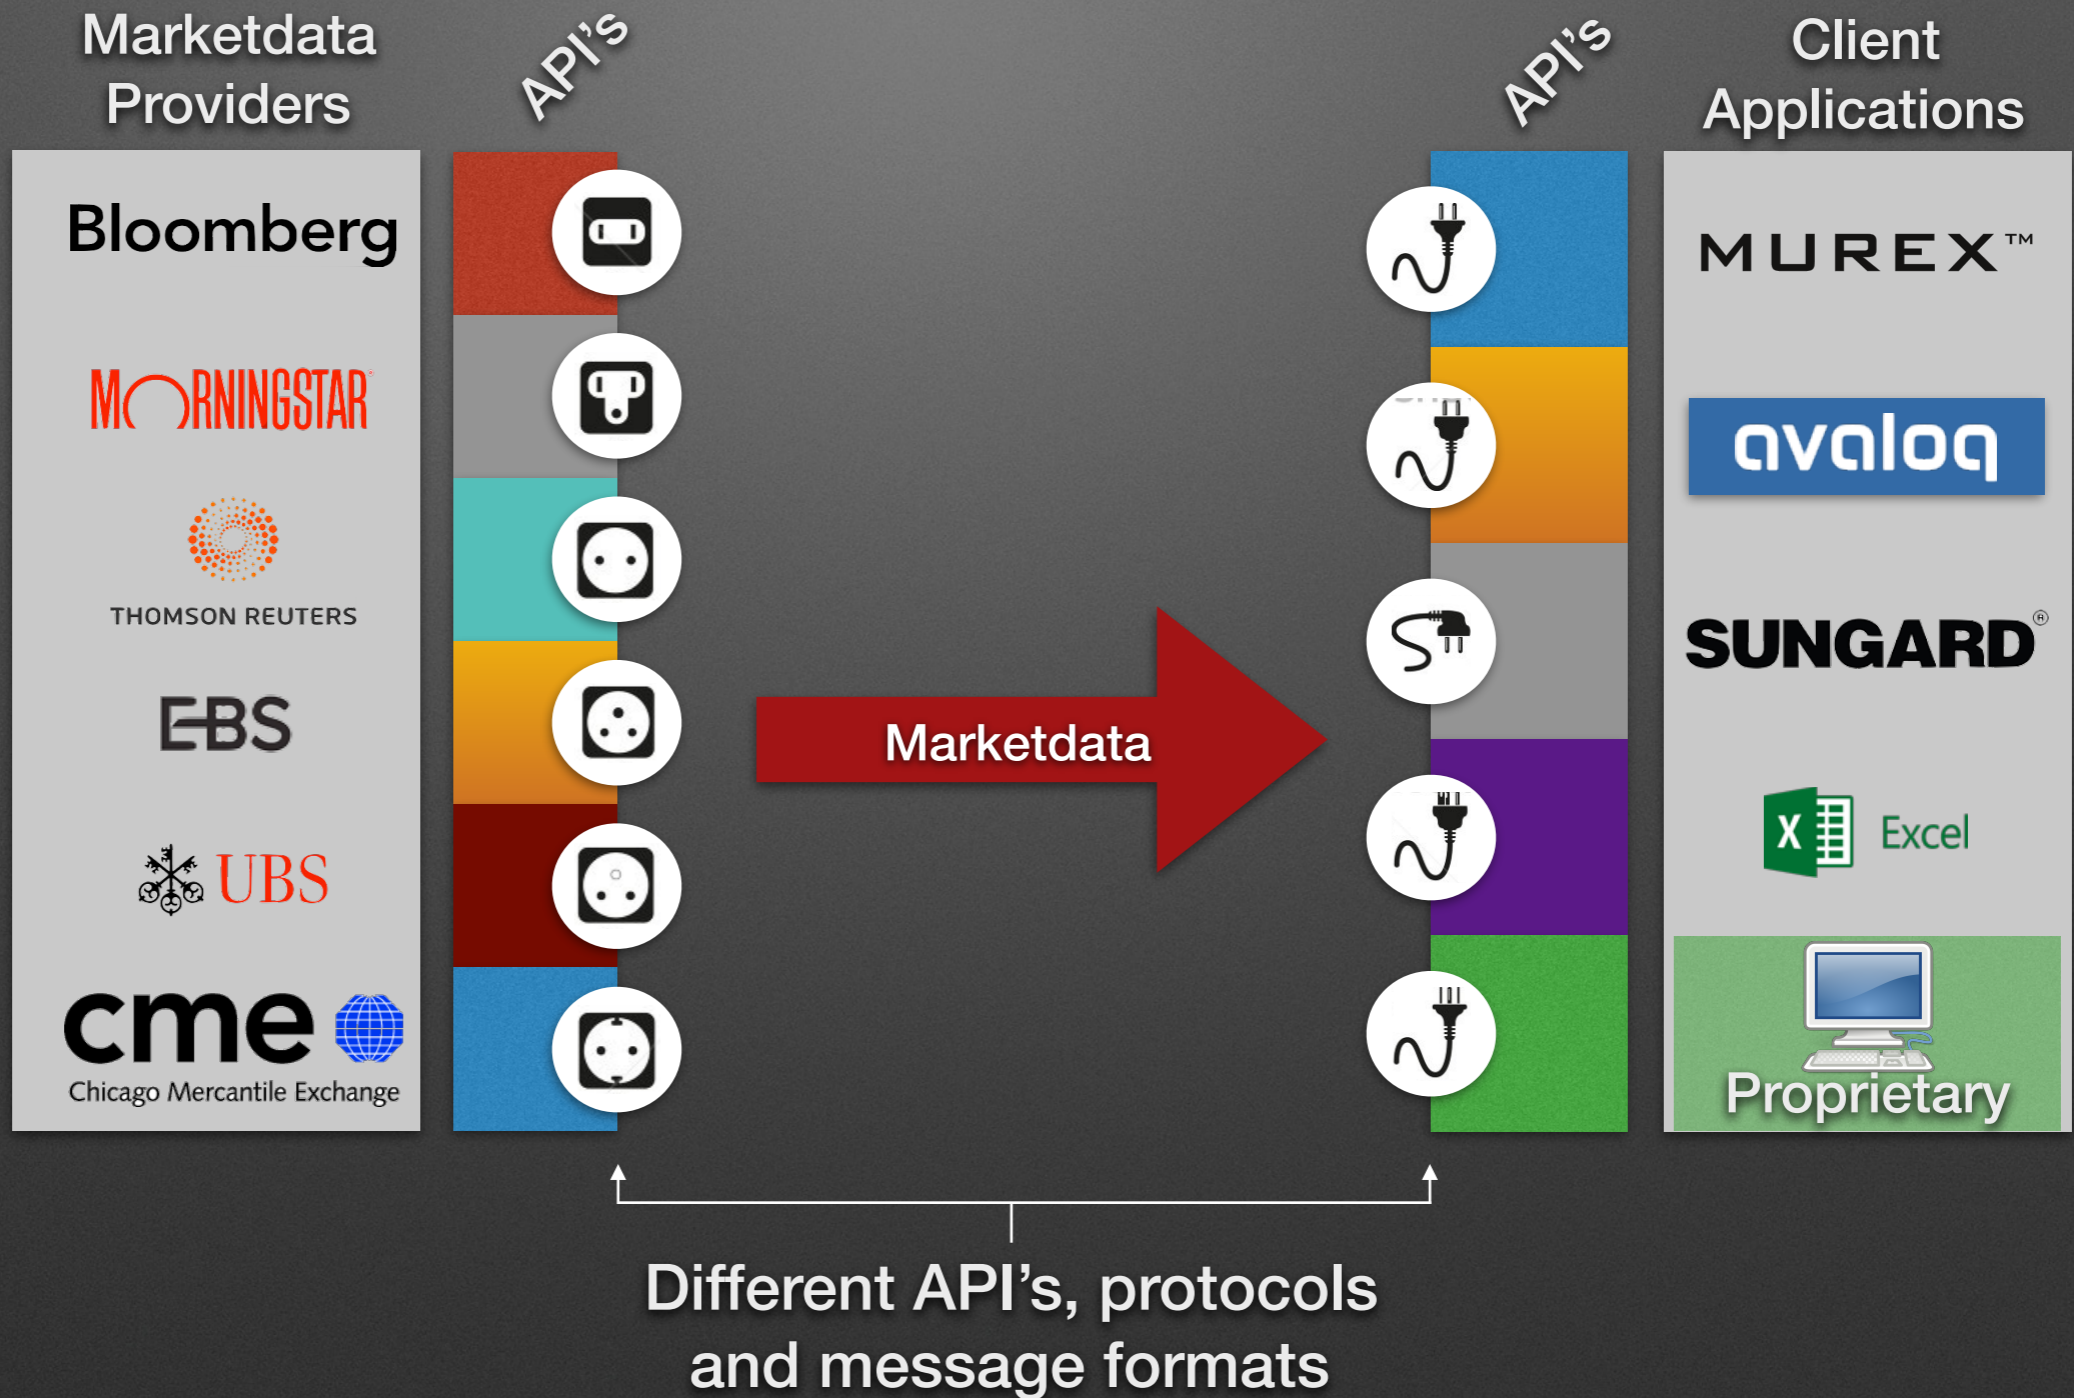

- Context
- Problems and Our Solution
- Demo
- Q & A

Financial Institutions

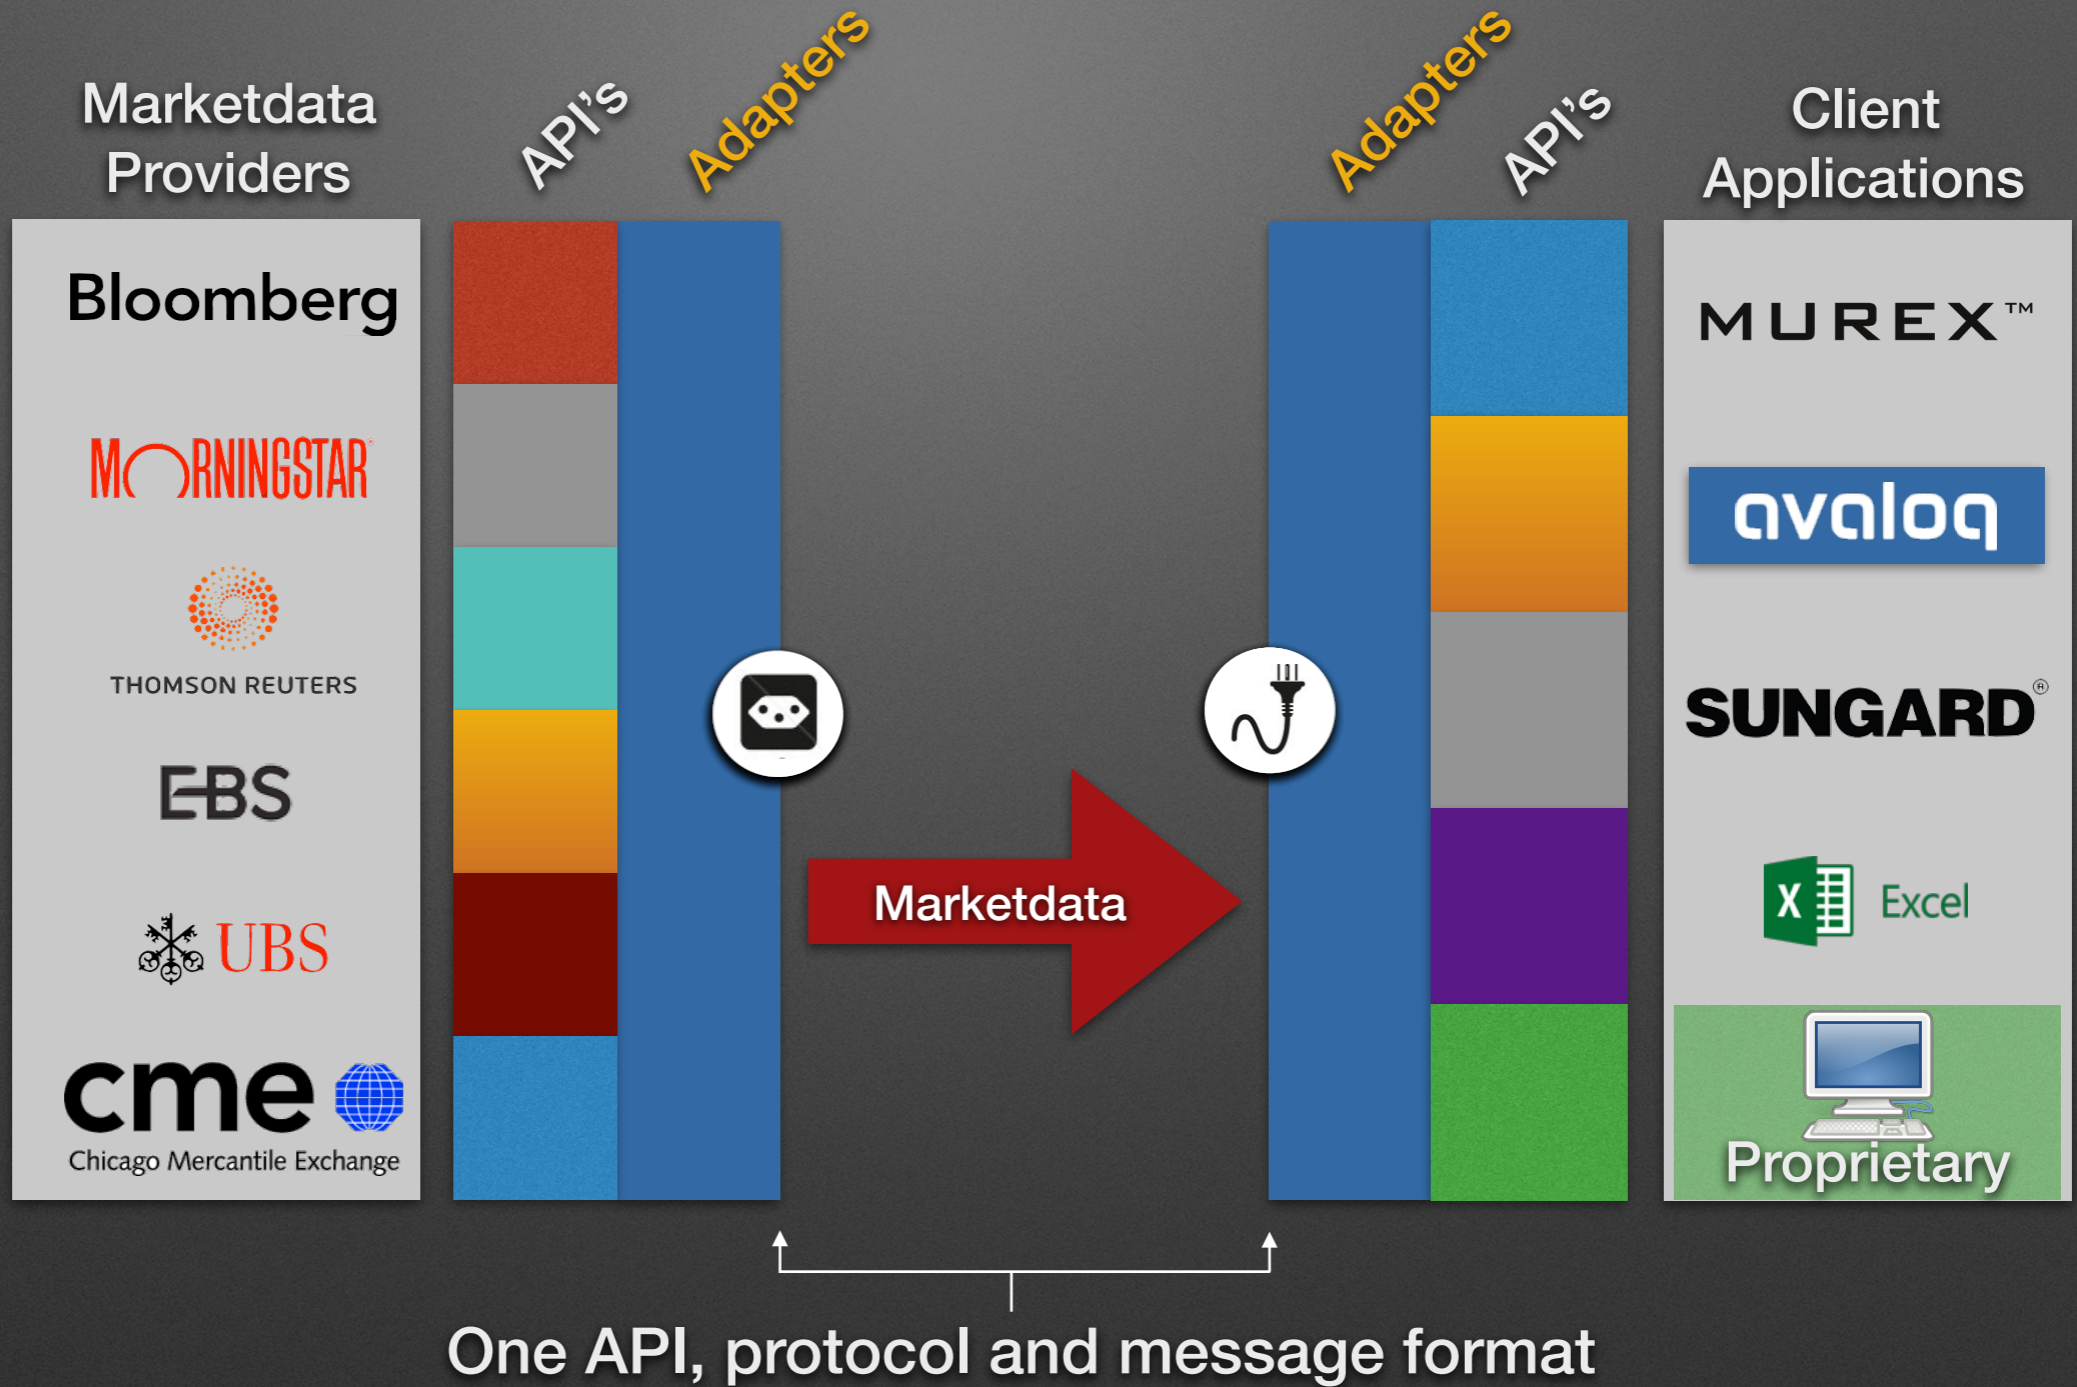

Problem 1

Many Connectors

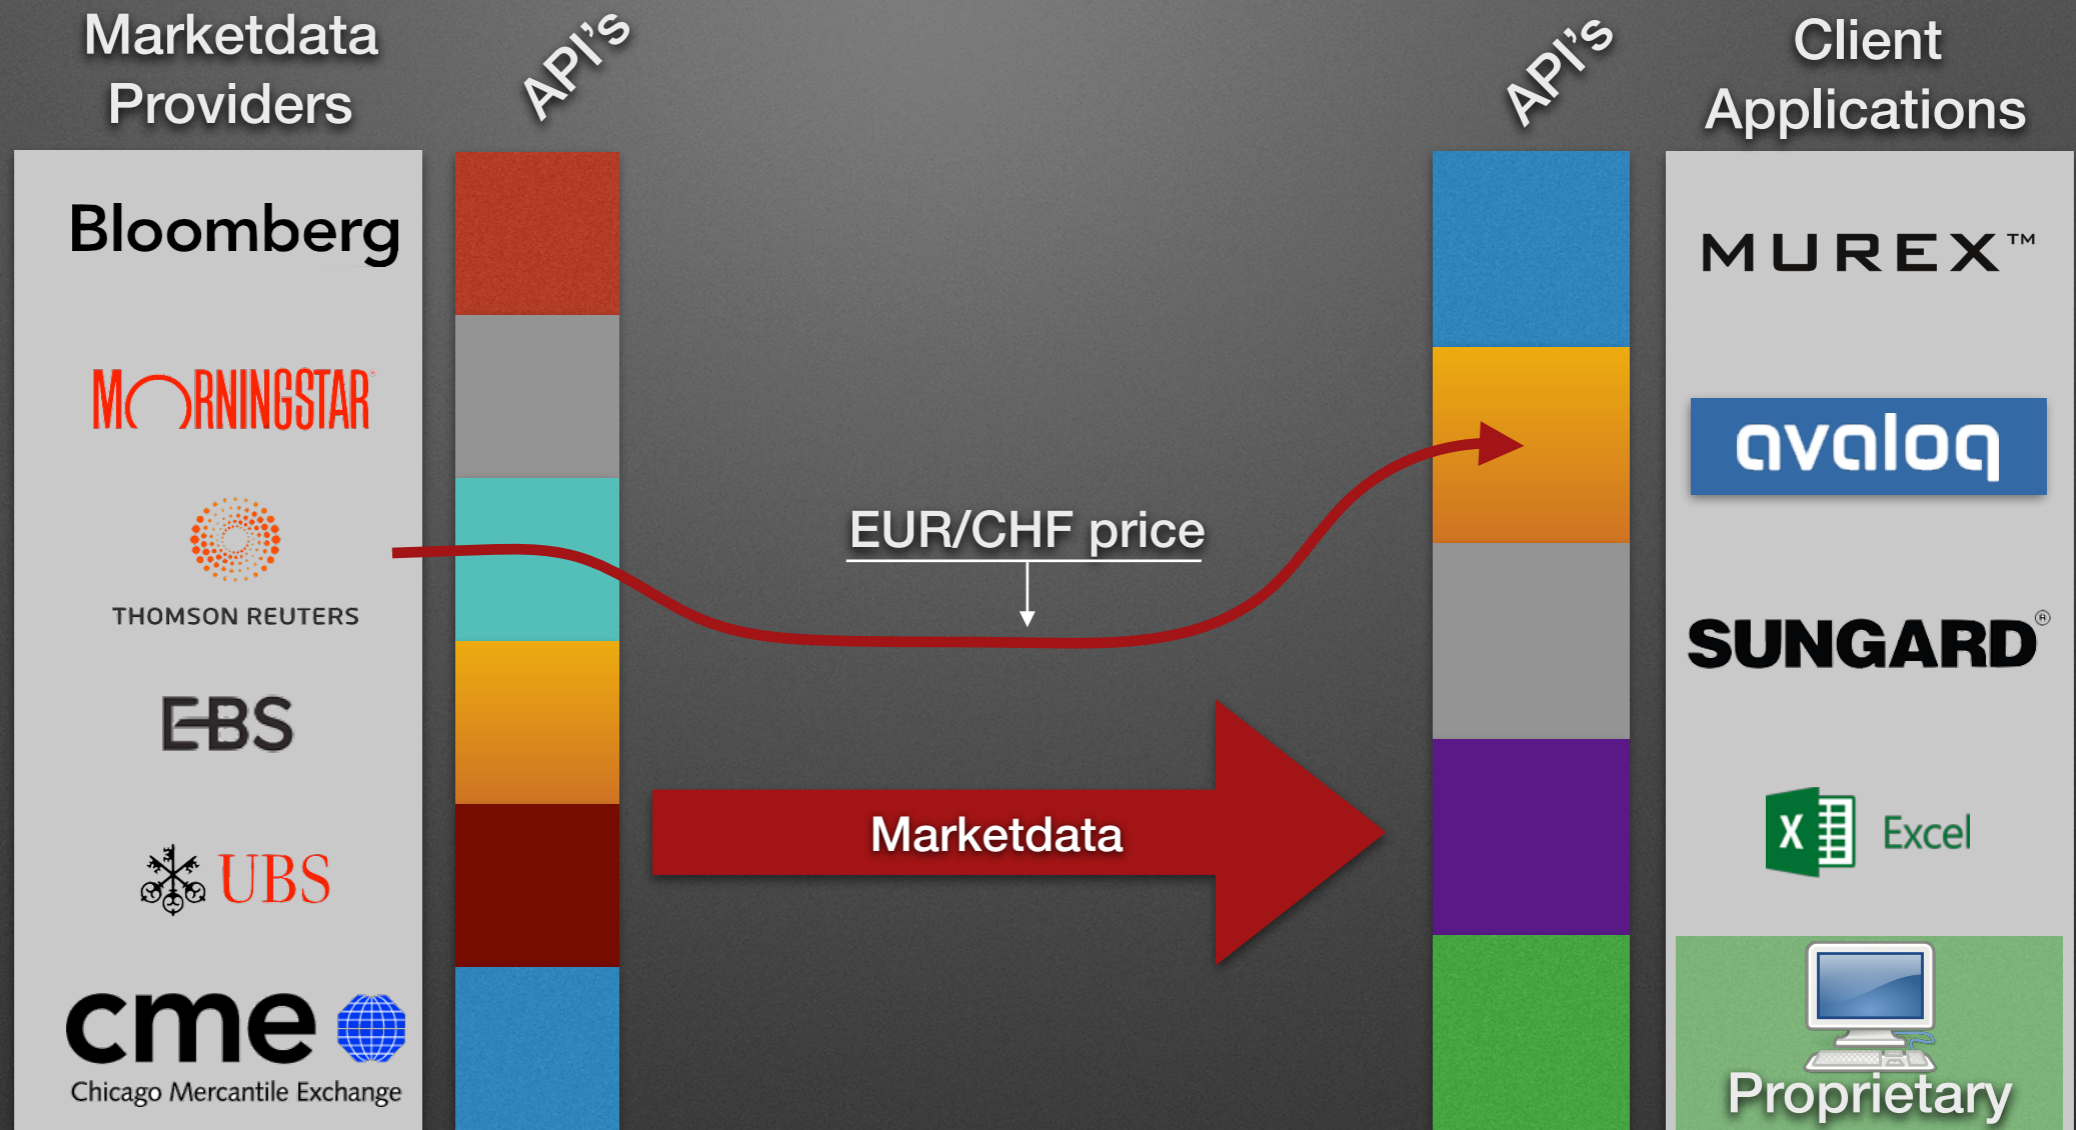

Solution 1

Adapters

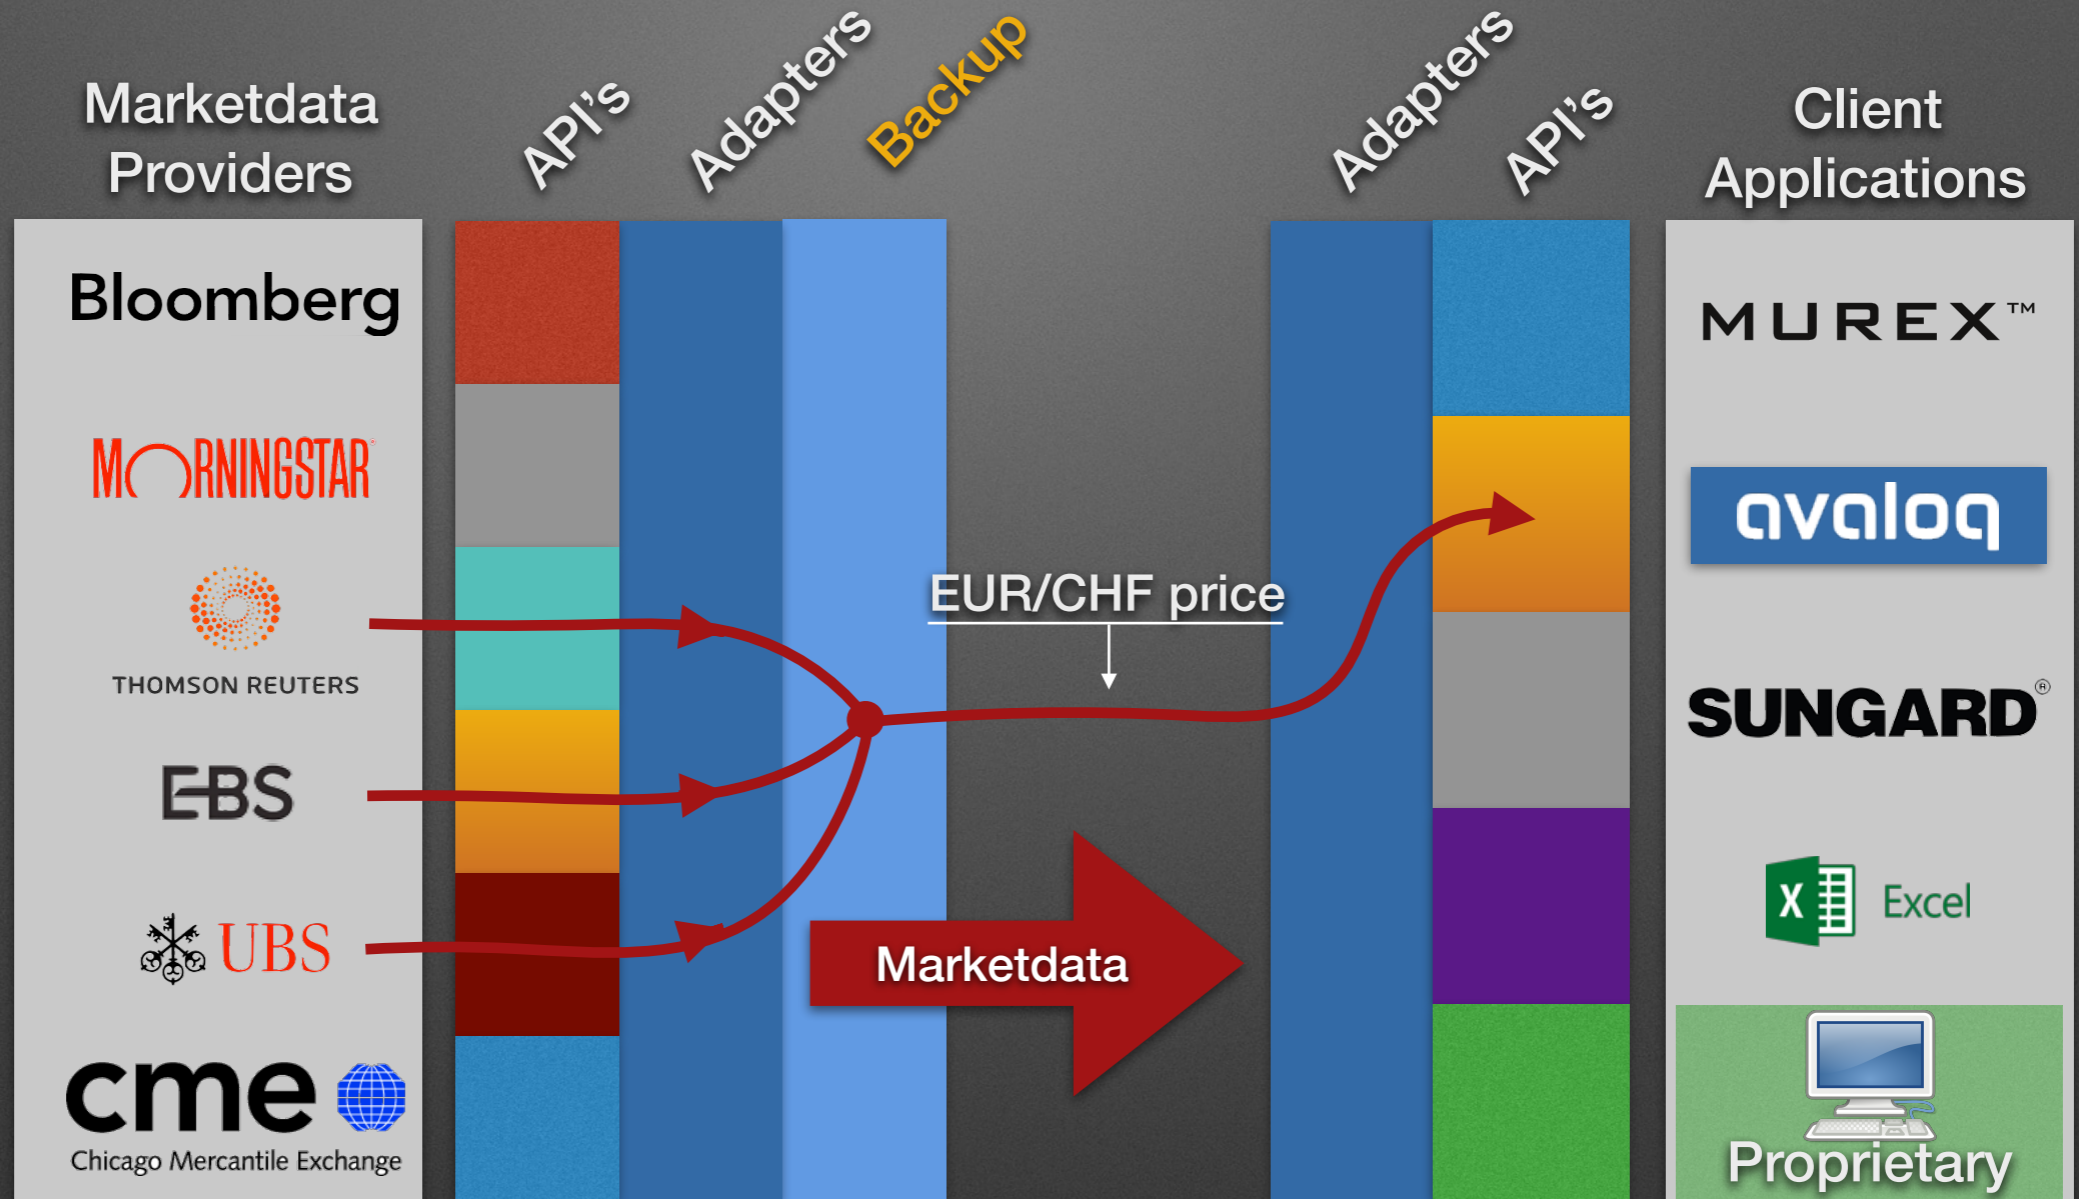

Single Dependency

Problem 2

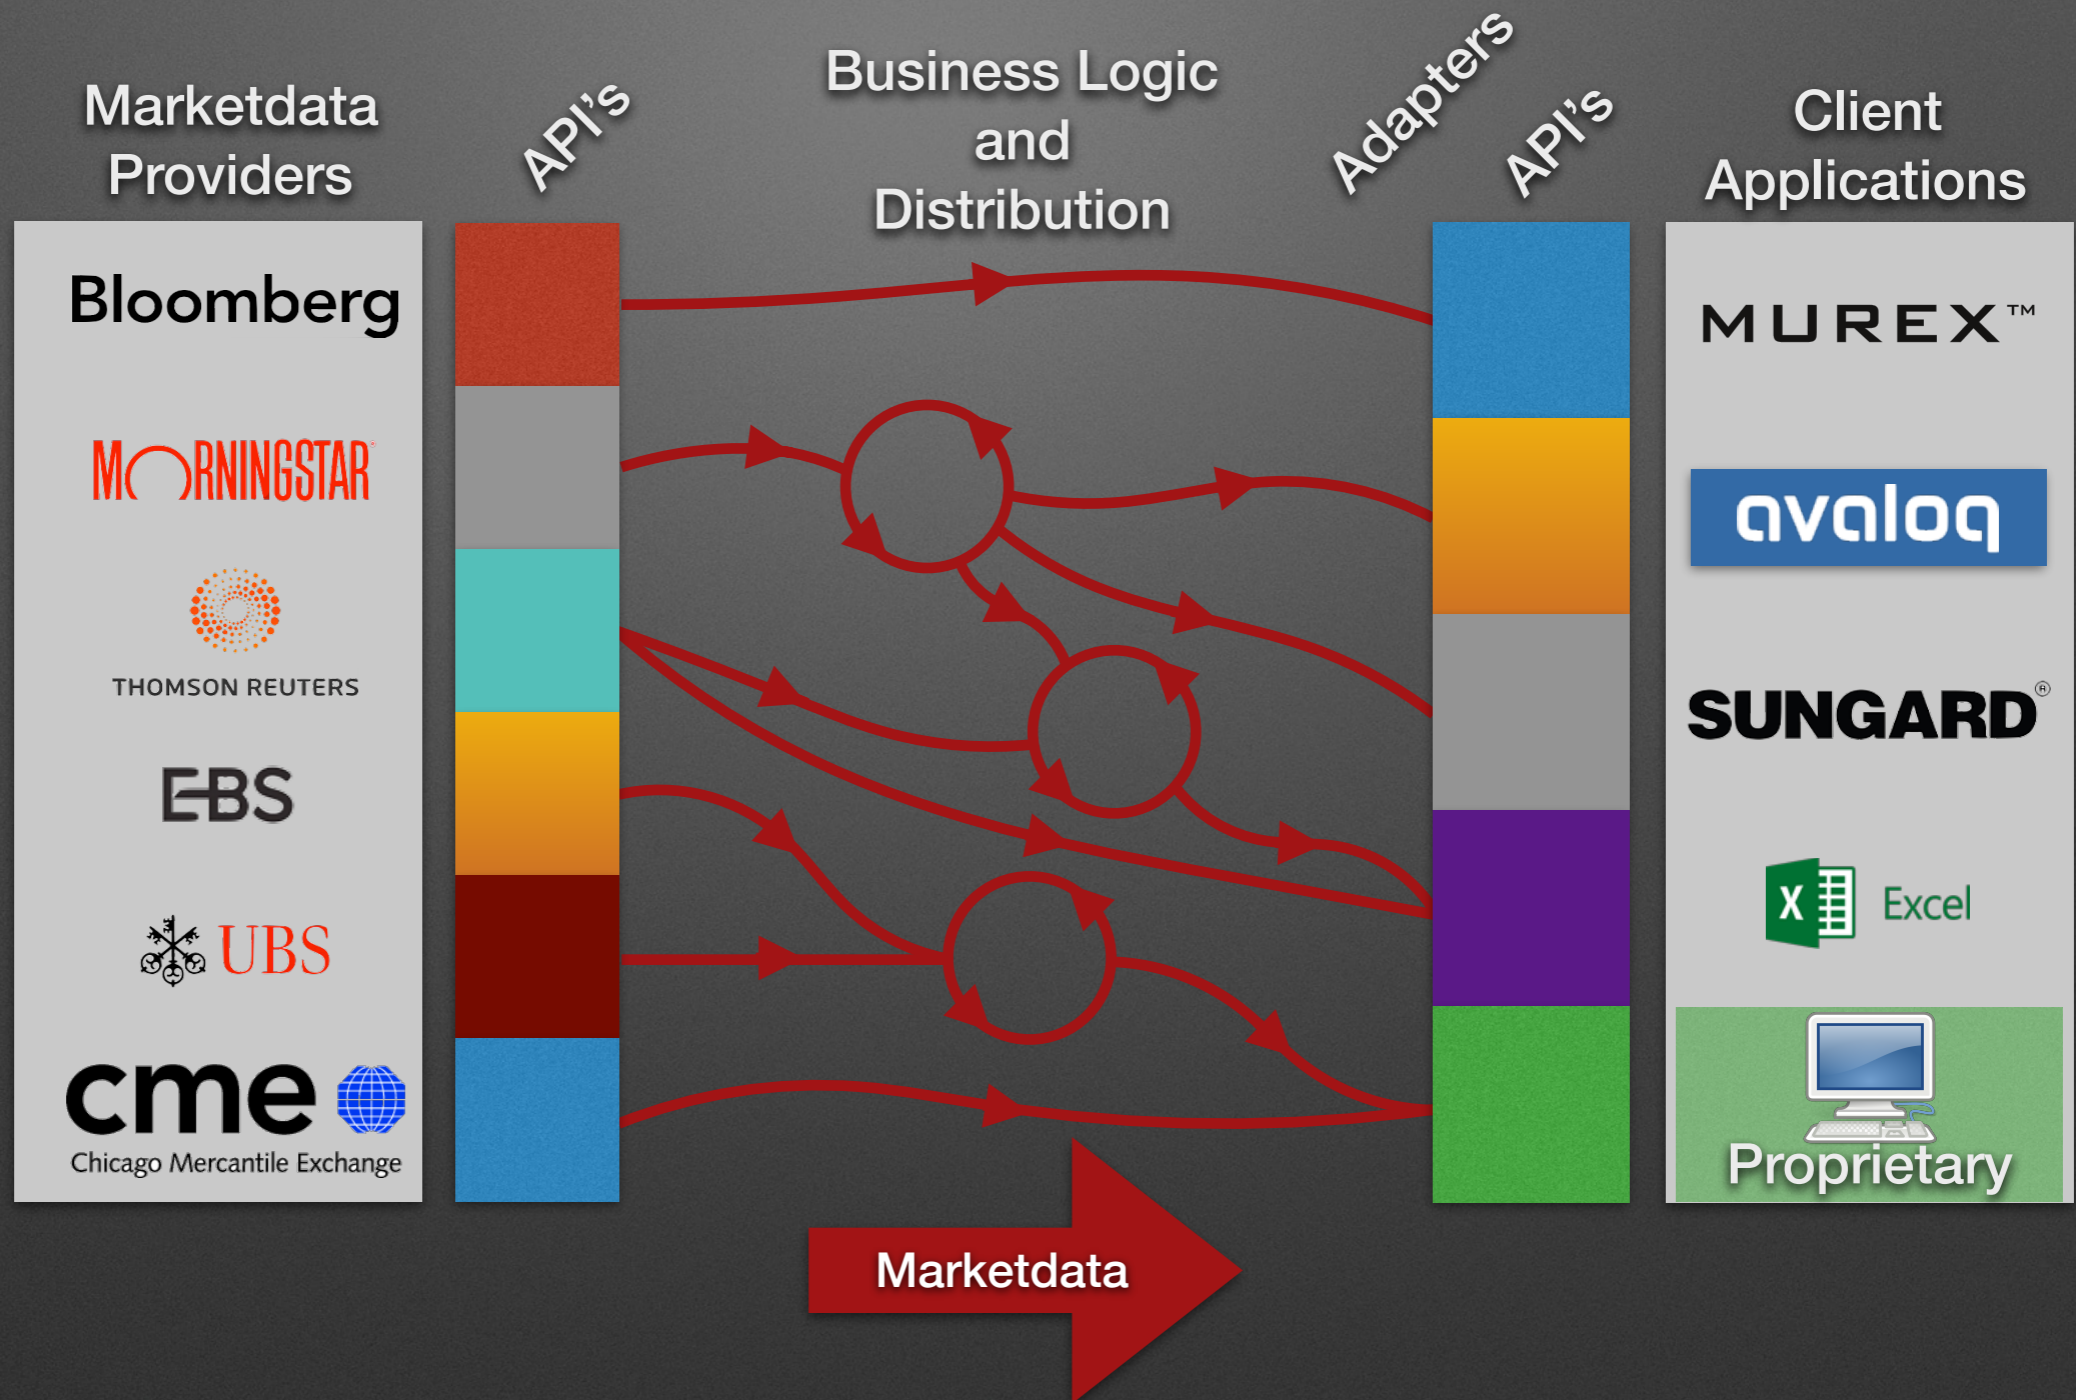

Backup

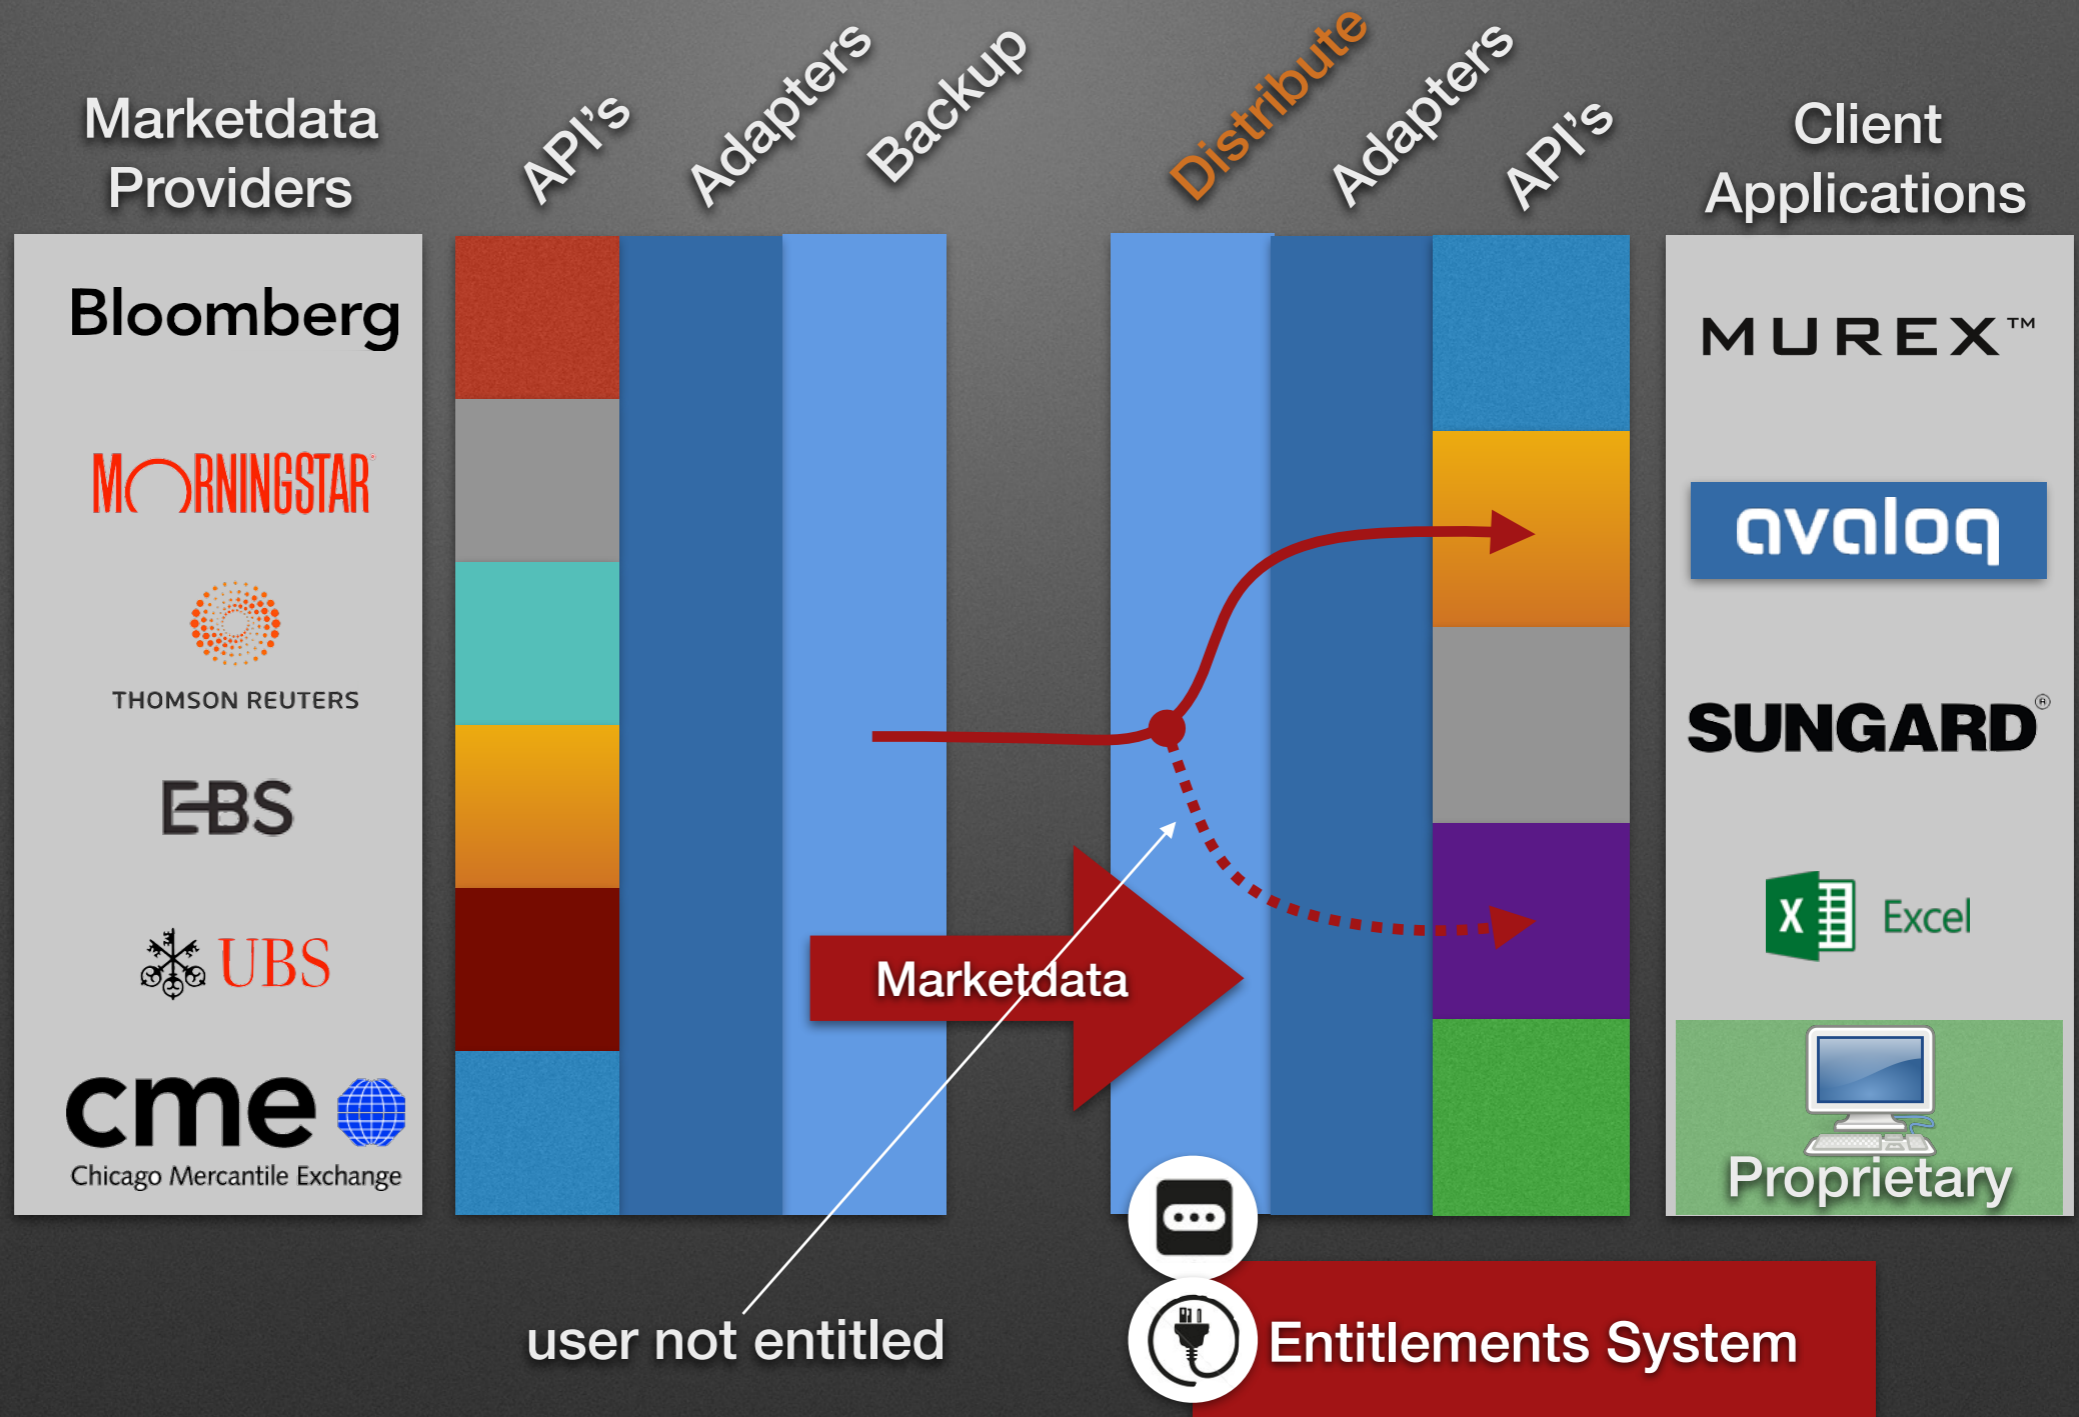

Problem 3

Uncontrolled Distribution

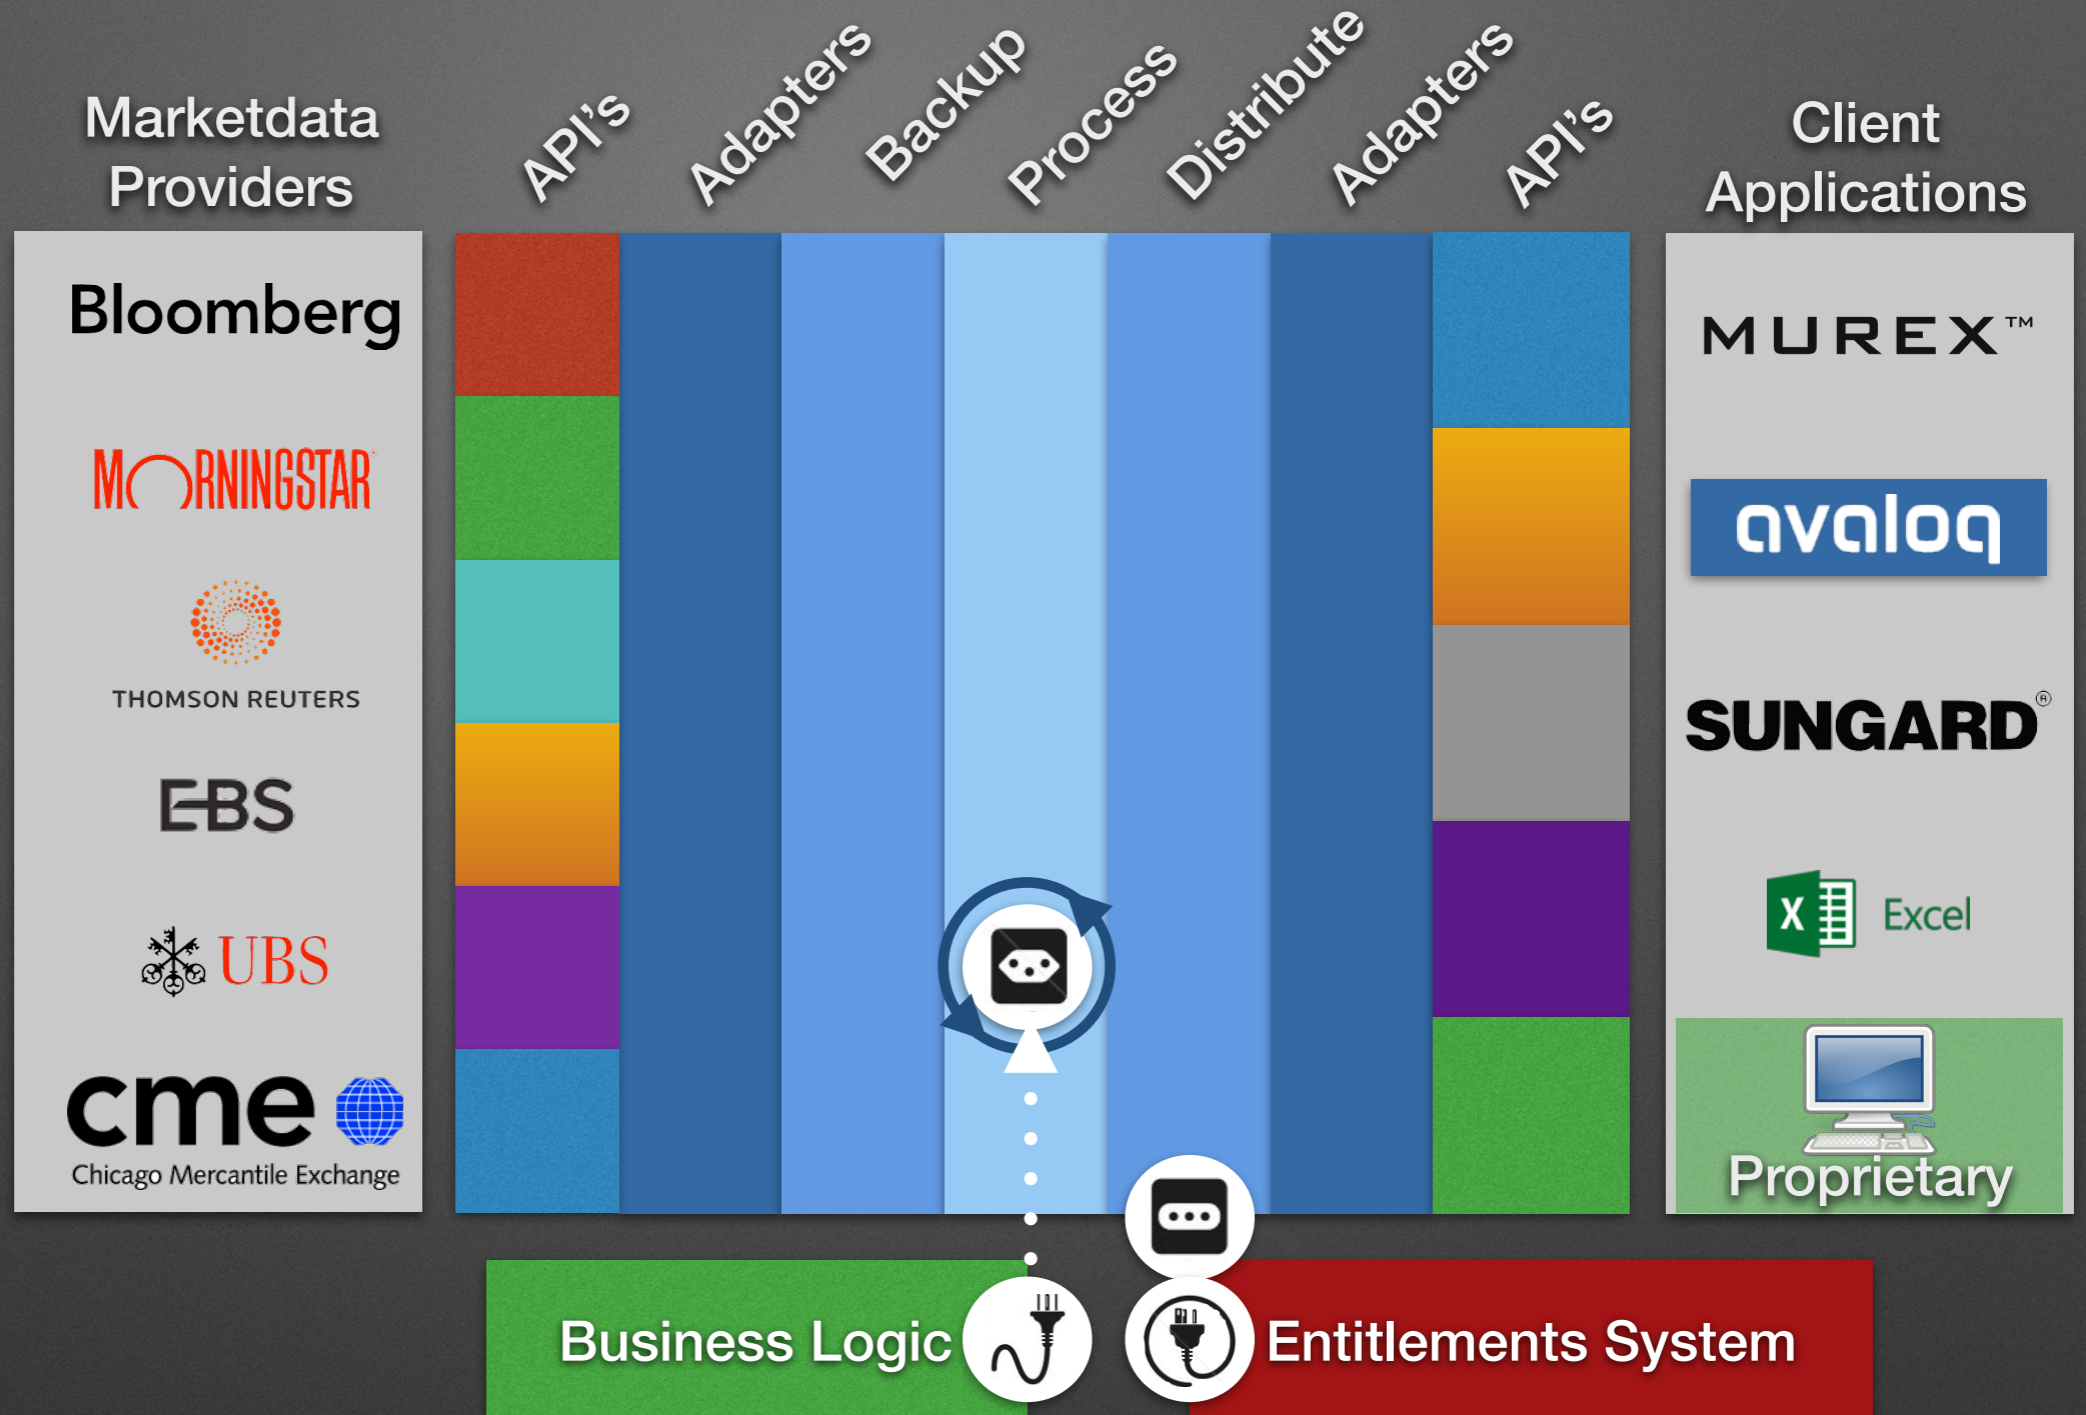

Entitled Distribution

Solution 3

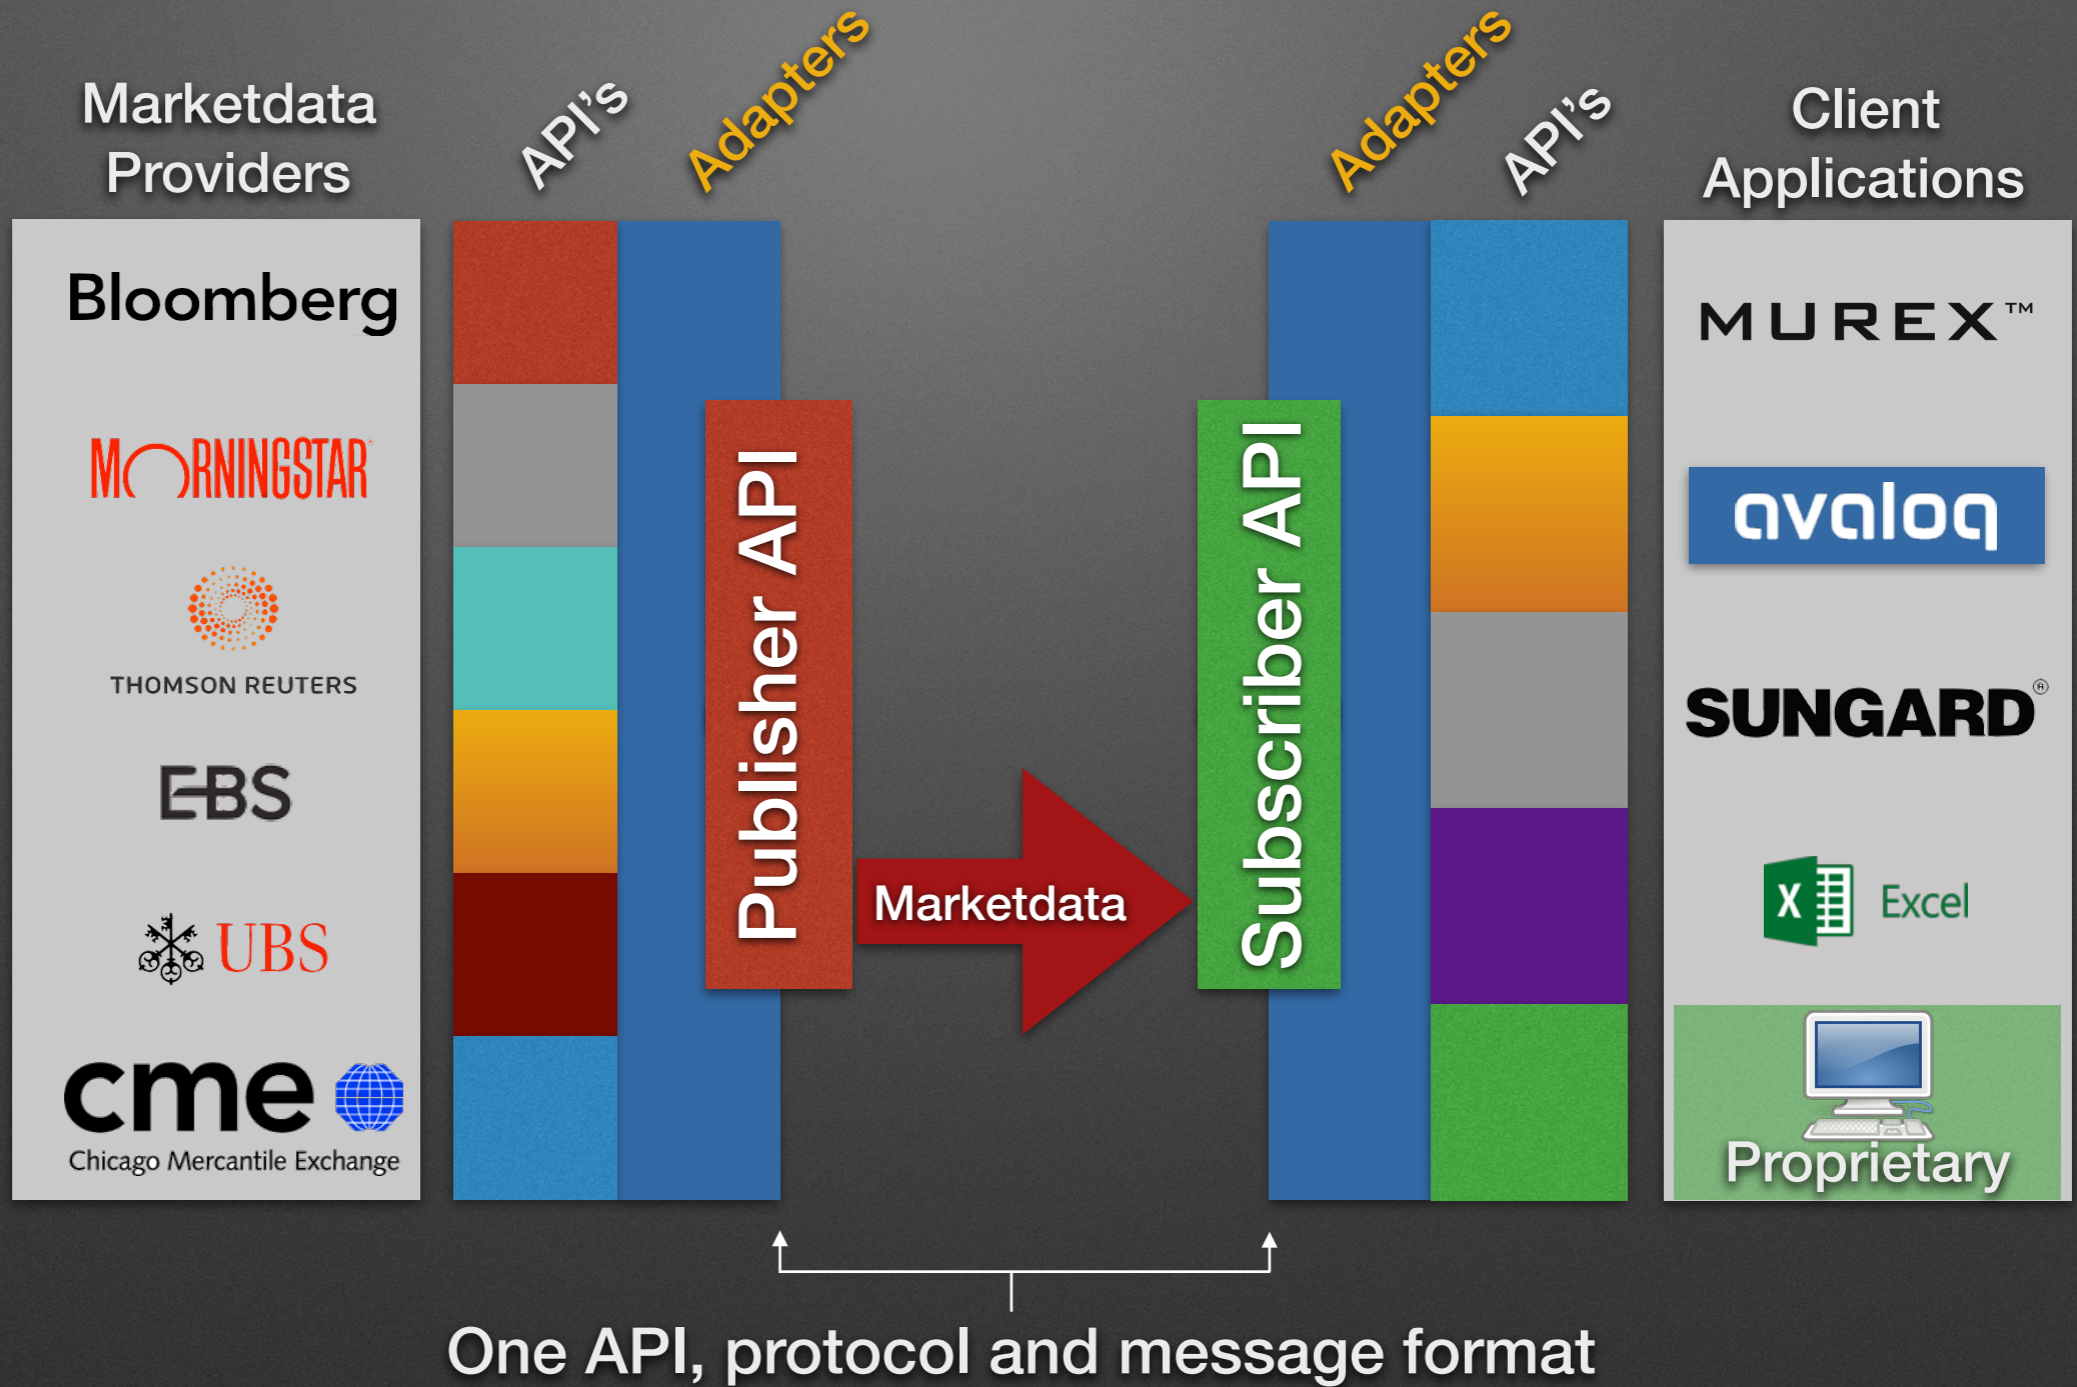

Our Solution

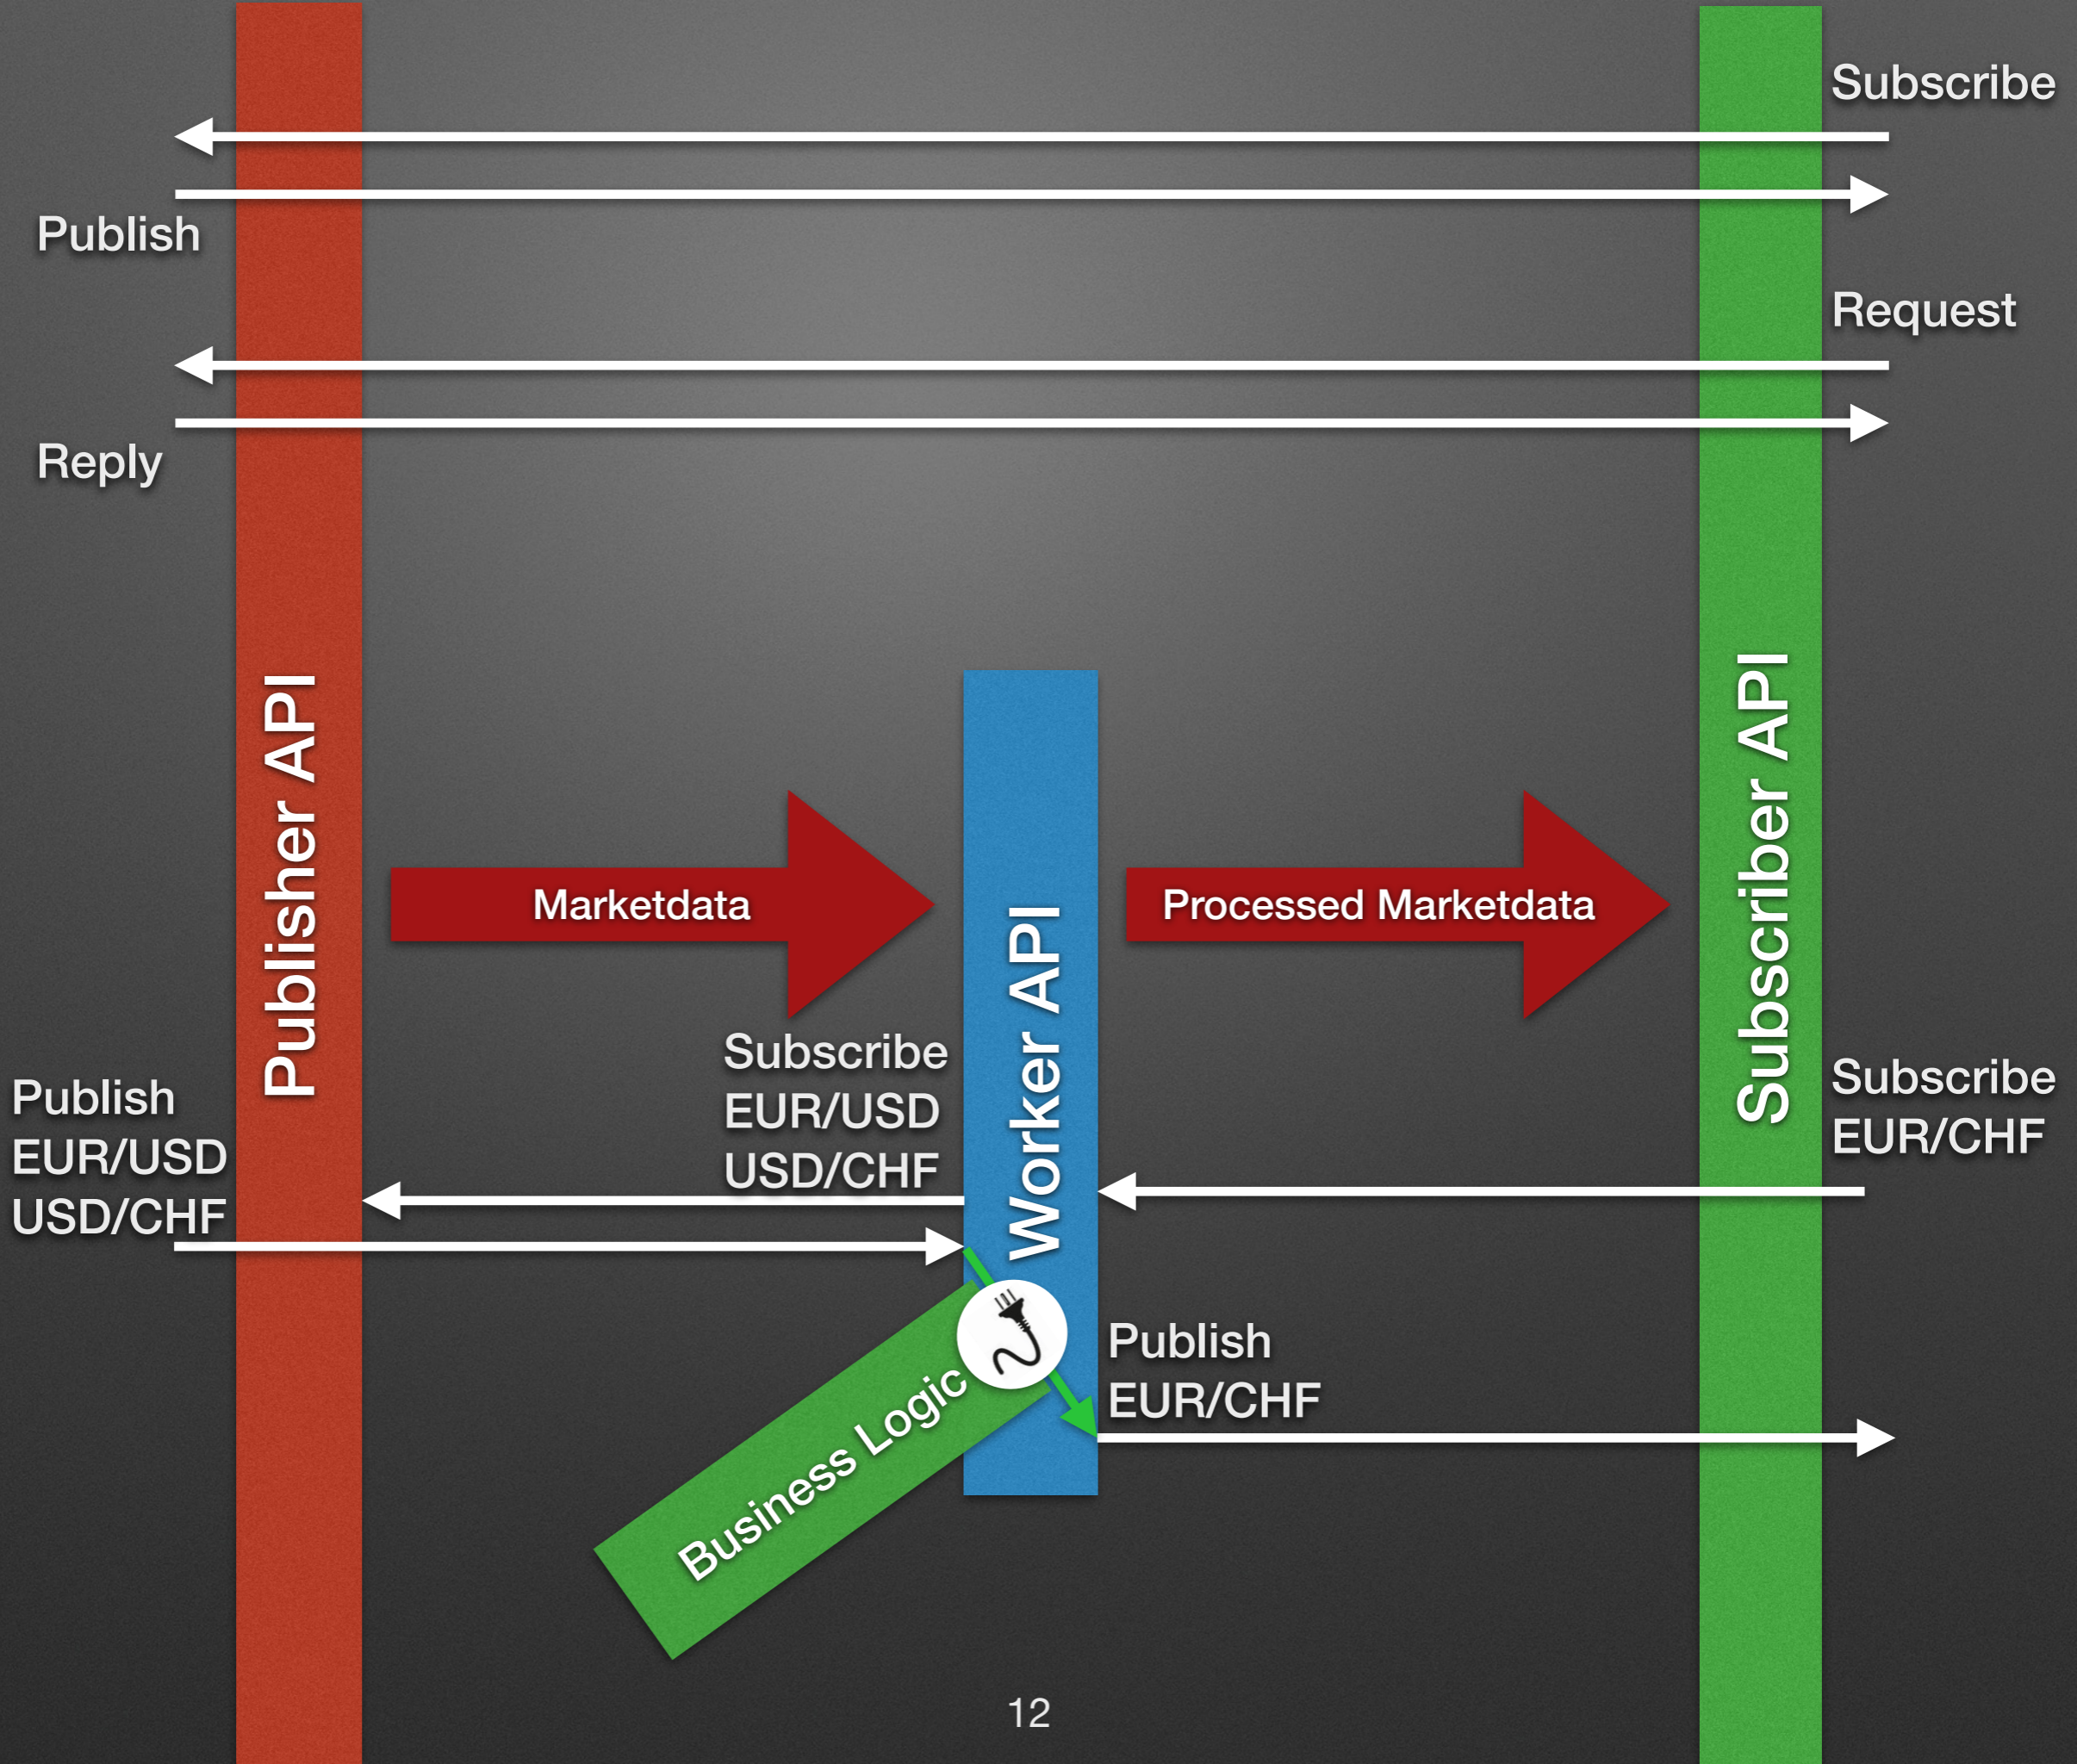

- Adapters : Simplifies integration
- Backup : Avoids trading on stale data
- Entitled distribution : Avoids fines
- Simple integration of existing business logic : Saves time -> saves money

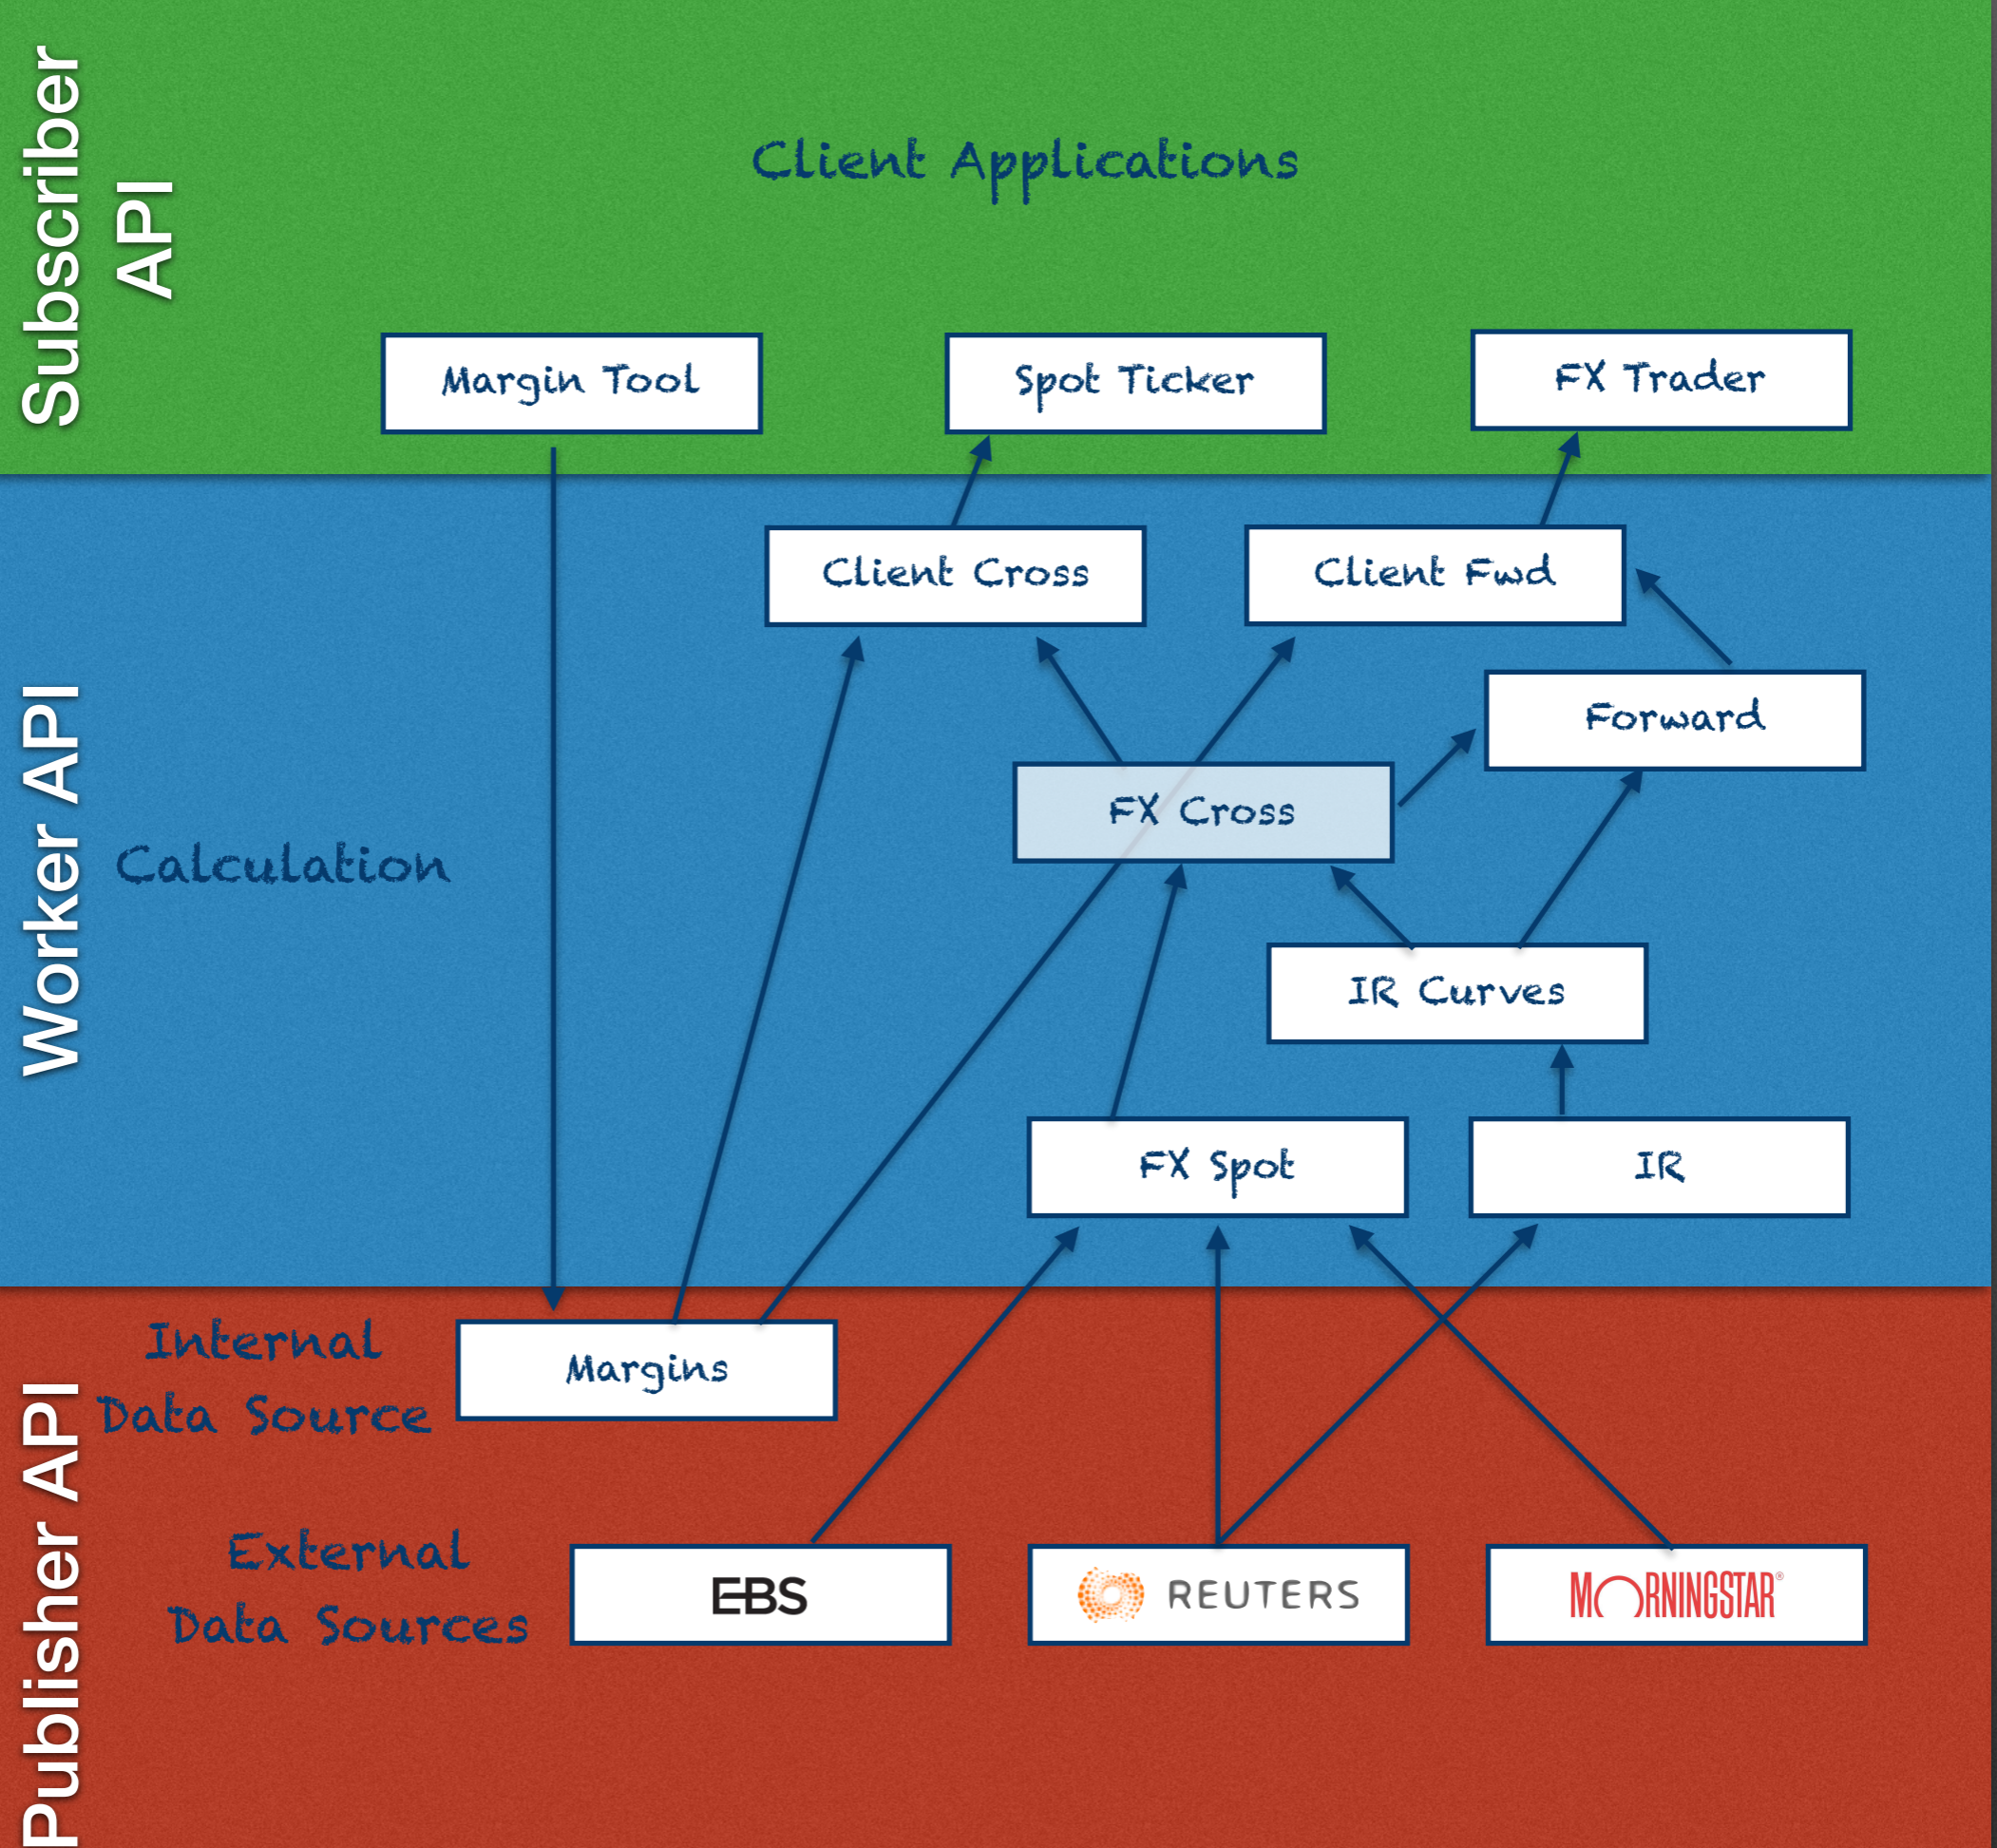

Business Logic Integration

Business Logic Integration

Business Logic Integration

GOAL:

To show how simple it is to integrate business logic with INNO-X

IMPORTANT:

Microsoft Excel is used for the demo. Only because it is great for visualisation.

Warning:

All prices are simulated!

Q & A
